

Case Study

Client – Scarborough Borough Council

Venue – Scarborough Spa Complex

Project – Technical Refurbishment

Architect – n/a

Consultant – n/a

Project Value – £3.75M

The historic Scarborough Spa complex, located on the Yorkshire town's South Bay, has recently seen the completion of the first phase of a £3.75 million refurbishment project, designed to bring this beautiful building up to the standards of a 21st century multipurpose facility.

Fagan Electrical is the lead contractor on the technical refurbishment project, heading a multi-disciplinary team which has now completed work on the venue's centrepiece Grand Hall, including new audio, lighting and video systems, much of it housed in portable racks to allow use in other rooms in the complex.
