

Case Study

Client – Live Nation

Venue – Hammersmith Apollo

Project – Chandelier Refurbishment

Architect – n/a

Consultant – n/a

Project Value – n/a

With a listed venue such as this, there are number of specifically designed light fittings containing glass shades and diffusers.

With a concern for the health and safety of the public in a venue such as this, Fagan Electrical have undertaken to work throughout the building, designing and installing replacement with heat proof plastic sections, to enhance the fitting back to their former glory.
